Guaranteed Seeds, Etc.

Price list.

We have large stock of field, garden and flower seeds, and exercise the greatest care in growing, selection and testing to keep our seed department up to the highest state of efficiency. Owing to lack of space here we are giving below the names of only a few seeds that should be planted at this season of the year. We especially call your attention to the low prices we are making at this time.

SPECIAL NOTICE

While we exercise the greatest care to see that all seeds go out as represented, we give no warranty, express or implied as to description, quality of productiveness of any seeds, bulbs, or plants we send out, and will not be in any way responsible for the crop. If goods are not accepted on these terms, they are at once to be returned and your money will be refunded. This is because of many conditions governing the planting and growing of seeds over which we have no control.

"Grown in the Heart of the Ozarks"

I Tell You, Fall Planting Pays!

—and here are the reasons why:

ALL planting has so many advantages, so many Big Advantages, that no one—either Newb forego getting their trees in the Fall and being ready. If there is any one hint that I would give my customers above China Rose, Winter, Crimson Glant, Early Scarlet Turnip, White Tip Turnip, French Breakfast, White Icicle and many other varieties. Oz., 10c; 1/4 lb., 25c; 1 lb., 65c, postpaid. ave been growing and selling trees for a good many years. and I know that the trees that I send out in the Fall give thy customers the greatest of satisfaction. Every tree is most certain to grow. There are few failures.

The reason is just as plain as plain can be. Nature the teacher. Nature does most of her planting in the Fall. That is the time she gets ready for Spring. Then when Spring comes, there is no getting ready do. It is done. No other job but to grow-to put aj! energy into making growth-into making stronger, agger and better trees than is possible when trees

And that is just what you want your trees to do. You want them to grow and come into bearing just as quickly as possible. You want the fruit to eat and sell. You want your trees to work—not loaf. A loafing tree is just as unprofitable as any other loafer.

But Fall planted trees don't loaf. They work. All during the Winter they are making new roots and get-ting in shape to grow and bloom and bear when Spring comes. They can't help doing so. It's Nature's way and Nature's way is the right way. So "Take Time by the Forelock." Buy your trees now and plant them this Fall. And as a further incentive for doing so, I am offering you in this circular some of the biggest Money Saving Bargains in Fruit Trees that you ever saw. They are the Greatest Values ever offered in fruit trees, and every offer is backed up by my fair and square guarantee of Satisfaction or your money back.

By All Means, Plant This Fall!

You will thank yourself a thousand times for taking advantage of these low prices. Just think of having your own orchard, lots of fruit, apples for storing in the cellar, canned finits, jellies, and jams of all kinds-a big orchard and berry patch for just a few dollars. Send your order today-don't delay.
